A FAIRY TALE IN BOTANICAL GARDEN

2020

Size: 12.5" x 18.6"
Media: Gouache, watercolor, color pencil, pencil on paper

This is a cover illustration for a fiction, which is about fairies in a botanical garden. The artwork's inspiration is the garden ceiling, where the silent fan moves busy and spreads fresh air to every plant. To give a magical mood in the illustration, I chose the ceiling as a background for starting the scene.
